

'Jewel' in the bay

1 Permanent stage deck

The circular grandstand bowl can be configured for events like NDP and the Marina Bay Countdown, and others ranging from concerts and performances to sporting activities and competitions. With a seating capacity of about 30,000, the NS Square will have seats that curve around the stage to provide a good view from every seat. It will also be the future parade square for Basic Military Training graduation parades.

2 Public waterfront promenade

A new public waterfront promenade around the stage will form part of an uninterrupted, continuous loop around Marina Bay. There will be a variety of dining options within the development, several of which will offer views of the bay.

3 Water sports centre

The development will include a water sports centre for activities like canoeing, kayaking and dragon boating. There will also be an elevated swimming pool with water play areas, a gym and a team-building hall.

4 NS-themed gallery

Through various multimedia platforms and a public atrium with hardware displays, the two-storey gallery will be an immersive exhibition space showcasing the stories and contributions of the Singapore Armed Forces, the Singapore Police Force and Singapore Civil Defence Force national servicemen.
