

Comparing corridors

The narrow common corridors at Pasir Ris One, a Design, Build and Sell Scheme development, have upset some residents of the premium Housing Board project, who say that the 1.2m-wide passages are barely wide enough. The Straits Times takes a look at corridor widths across different public housing projects.

DBSS – Pasir Ris One

Completed:
2015
Location:
Pasir Ris
Corridor
width:
1.2m

DBSS – The Peak

Completed:
2012
