

# Attitudes about retirement across wealth, health and social aspects in Singapore

The DBS-Manulife Retirement Wellness Study looked at the retirement attitudes, expectations and level of preparedness in Singapore and five other markets, including Hong Kong and India.

Singapore's retirement wellness index score:

**46/100 points**

Regional average: 56 points

Protect health:

**54 points**

Build wealth:

**35 points**

Enrich life (social):

**49 points**

## Top three concerns when planning for healthcare needs

**38%**

Worried about ability to afford medical costs when they retire

**32%**

Not sure how to estimate how much healthcare might cost in retirement

**20%**

Don't know who will provide caregiving for themselves when they retire
