## WHAT TO DO

### Changi Airport booth

Design your very own A380

Choose your favourite colours and designs for a superjumbo on a piece of paper and watch it take off and fly the skies.

### Experience a seamless check-in

Sneak a peek at the upcoming self-service options at the yet-to-be-opened Terminal 4. The do-it-yourself services range from check-in and bag drop, to automated immigration clearance and self-boarding.

### CAAS booth

Direct planes

Find out what it is like to be an air traffic controller with the Civil Aviation Authority of Singapore and get a 3D look at the upcoming Terminal 5, expected to be completed in the late 2020s.

### ST Engineering booth

Play soldier

Get on board the Terrex 2 armoured wheeled vehicle. See the vehicle's unique features like the battlefield management and surveillance systems, as well as its ability to cross water obstacles such as rivers and take on challenging terrain.

### Design and fly your own plane

From the shape of an engine to the angle of the plane's tail, you can build your own plane and fly it with the Flight Crafter.

### RSAF booth

Be a fighter pilot

Get behind the controls of one of the world's most advanced fighter jets, the F-15SG, with the Republic of Singapore Air Force.
