

#STallclimatechange

What does climate change mean to you?

Take part in our online survey here <http://str.sg/ZyuT>

Doodle a picture, film a video or snap a photograph, and tell us why in 50 words or less!

You can hashtag your entry #STallclimatechange on Instagram, or e-mail us at STscience@sph.com.sg

Here is what climate change means to ST reader Pippy Midd:

Will this hazy scene become the norm, or will governments, companies and individuals join hands to ensure that we have a clean and unpolluted environment to live in? As an individual, I go the paperless way whenever possible. Are you doing your part to help stall climate change?

This is the last winner for the climate change series, which ended last week.

Winners will get two books and a pair of tickets to the Lee Kong Chian Natural History Museum.
