

Meeting the new threat

The SAF is stepping up its readiness with

- **New deployments**

Boots on the ground in crowded public areas

- **New facilities**

A mock town, with high-rise buildings and road networks, will be built for training

- **New firepower**

Special Ops teams will get weapons and palm-size unmanned aerial vehicles to scope and take out targets

- **New systems**

SAF will share intel with Home Team and work together on new operational command systems
