

EXPIRY DATES
Degrees and diplomas have limited shelf life, maybe of just a few years. Refresher courses and top-ups are a must to update knowledge and skills.

SHORT IS IN
Short courses at polytechnics and universities will be popular, taken when workers need certain skill sets, and leading to micro-certificates.

FROM 18 TO 80
Admission to tertiary-level courses to be based on ability, not age. Classrooms go inter-generational.

BEST FIT
Career counsellors in schools and tertiary institutes help youth find a good fit, workwise, and start early to pursue passions.
