Supporting victims of sexual crimes

**Pilot of OneSafe Centre**
Adult rape victims can have medical examinations by doctors in private facility instead of being taken to public hospital.

**Training video for officers**
Video developed with Aware will help front-line and investigation officers be more sensitive to victims.

**Information pamphlet**
Pamphlet to educate victims on investigation and court processes, encouraging them to come forward.

**Improvements to victim care**
Interview models for intra-familial child abuse cases may change, to reduce victims' need to recount their experience repeatedly.

**Stronger law and court processes**
MinLaw looking to reduce stresses on victims, by enhancing restrictions on cross-examination in court among other possibilities.
