

# Ways to save water

---

Buy appliances, such as washing machines and taps, with the Water Efficiency label.

Turn off the tap when soaping in the shower; one minute less can save nine litres of water. Use "half flush" for liquid waste and "full flush" for solid waste in the toilet. Use a mug when brushing teeth.

Wash vegetables and dishes in a basin. The water can then be used for other purposes such as watering plants. Use the washing machine only on a full load. The last round of rinsing water can be used for mopping the floor and flushing the toilet bowl.

Use water thimbles to regulate tap and showerhead flow rates. Members of the public can contact PUB on 1800-2255782 for one.
