

# Ransomware: How it works

## Malicious code blocks access to the data in your computer

## Here's what it can cost you to get your data back

- The equivalent of **€1,500** (\$2,300) to unlock the contents of a computer
- A Los Angeles hospital had to pay **US\$17,000** (\$24,000) to recover control of its data in February
