

Parliament in numbers

3

Number of Bills passed

350

The average number of roadside vegetation fires attended to by the Singapore Civil Defence Force yearly from 2014 to 2017. These were mostly caused by stray cigarette butts.

More than

100,000

The number of shared bicycles in Singapore today.

3

The number of times in a year that users of shared bicycles can be caught parking improperly before they are banned temporarily from using these services under the Parking Places (Amendment) Act.

60,000

The number of Housing Board rental flats that will have free smoke alarms by 2021.

Around

2,900

The number of seniors, aged 65 and above, who received subsidised treatment for incontinence in the past three years.

83,000

The projected number of people living alone by 2030, up from **35,000** in 2012, which the newly introduced Vulnerable Adults Bill seeks to address.

2 in 5

The average rate of "contamination" of commingled recycling bins, which occurs when non-recyclables, such as food waste, are improperly thrown into these bins.

\$5

The amount that large greenhouse gas emitters, which are responsible for around 80 per cent of Singapore's emissions, must pay for each tonne of emissions under a new carbon tax from 2020.

9%

The proportion of work dispute cases heard by the Tripartite Alliance for Dispute Management last year which saw at least one party failing to show up for mediation.

6

The number of greenhouse gas types which are targeted by the new carbon tax. These are:

- Carbon dioxide
- Methane
- Nitrous oxide
- Hydrofluorocarbons
- Perfluorocarbons
- Sulphur hexafluoride
