

**1 Safety breach**

On April 17, CFC Lee was asked to run at a slightly faster pace than required and had a shorter rest time than stipulated in the lesson plan

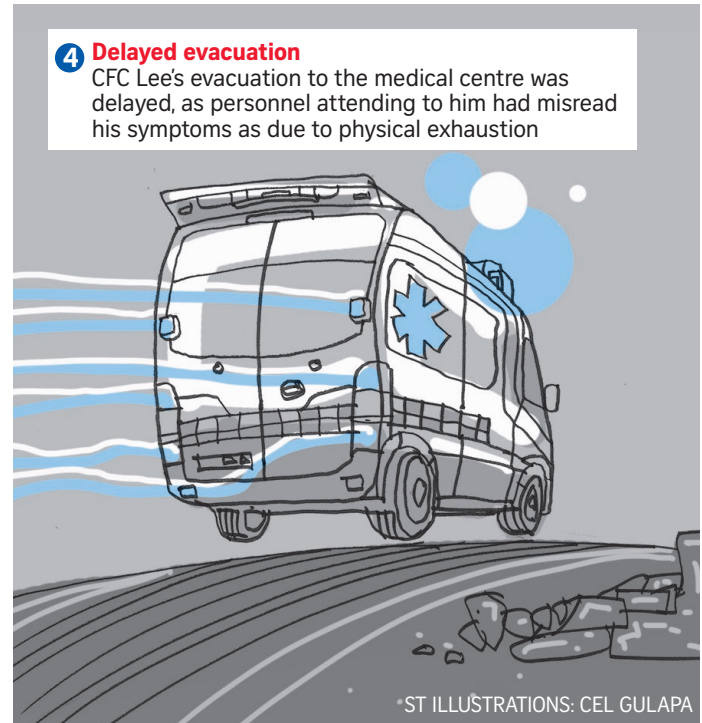

**2 Unauthorised punishment**

On the night of April 17, CFC Lee's platoon was given physical punishment, including push-ups and leopard crawls. The session included having water poured on the troopers, and lasted about 30 minutes

**3 Heat injury**

On the morning of April 18, CFC Lee was the last person to complete an 8km fast march, and appeared to be disoriented afterwards. Personnel who attended to him unbuttoned his shirt and gave him water, although ice packs applied were not placed properly

**4 Delayed evacuation**

CFC Lee's evacuation to the medical centre was delayed, as personnel attending to him had misread his symptoms as due to physical exhaustion
