EASY RUN

- **Purpose:** To build the aerobic running system, training your heart and muscles to adapt to the distance gradually.
- **How:** Be able to have a conversation during the run. If alone, try reciting the Singapore Pledge. You should be able to do this comfortably.

WORKOUT

- **Purpose:** To introduce intensity to train different energy systems.
- **How:** Pacing by feel is key. Start at a comfortable effort so that you can still finish the last set strong.

REST

- **Purpose:** Rest allows the body to get stronger.
- **How:** Spend this day completing other tasks in your life. Let running take a back seat.
