

What Singaporeans think of NEHR

More than 2,000 people were polled for their views on the National Electronic Health Record (NEHR) system. Here are some of the questions they were asked, and their responses.

"I am confident that my data in the NEHR is secured."

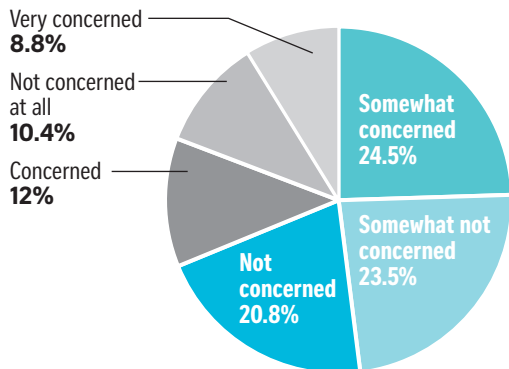

"With the NEHR, my doctor(s) will be able to make better-informed diagnoses and decisions for the best course of treatment to improve my health."

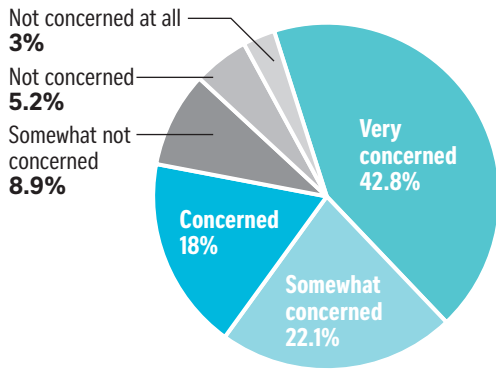

How concerned are you?

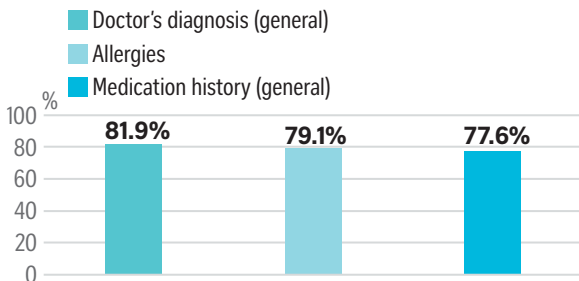

"Your medical information being seen by all your attending doctors."

"Your medical information being used for matters of public interest by the Ministry without your consent."
