

# Ensuring smooth commute

## SOUTH VIEW LRT STATION

An unused space outside the LRT station was converted into a 3m-wide path for commuters. Utilising the full space required changes to the landscape and the construction of retaining walls.

Before

After

## FAJAR SECONDARY SCHOOL

A 6m-gap between an existing walkway and the school's gate has now been closed by the Land Transport Authority.

Before

After

200km

Total length of new sheltered walkways under the Walk2Ride programme

\$300m

Cost of building the covered walkways

400m

The radius within which commuters would be linked to MRT stations from residences as well as amenities like schools and healthcare facilities

200m

The radius within which commuters would be linked to bus interchanges, LRT stations and some bus stops
