

Imagining a new waterfront city

- 1 St James Power Station to be developed into an office complex.

- 2 Housing complexes among the greenery and water sports and leisure options. Island served only by autonomous electric vehicles.

- 3 Waterfront area with mixed use developments and new tourist attractions, serves as extension of the central business district with a high-tech hub for innovative, digital and creative businesses.

- 4 More cruise traffic at Marina Bay Cruise Centre and the Singapore Cruise Centre at HarbourFront.

- 5 Waterfront stretch links green pathways across the city, such as the Southern Ridges and Gardens by the Bay.
