

Modern fittings for new HDB flats

Laminated timber door

Conventional timber veneered doors will be replaced with doors made of laminated timber, which is more scratch-resistant.

Better sanitary fittings

Bathrooms will feature a new range of dual-flush low-capacity water closets with more designs and better finishes.

Top-hung window

Replacing louvred vents with wired glass panels are top-hung windows for easier maintenance.

Current

Concealed floor traps

Tile-insert floor traps will replace plastic floor traps for a sleeker finish.

Current

Current

Steel entrance gate

More contemporary designs are available for the new steel gates. The new gate also features an interior thumb-turn knob allowing easier exits in case of fires.

Glazed porcelain tiles

Glazed porcelain tiles, which are more resistant to wear and tear, will replace ceramic floor and wall tiles in the kitchen and bathrooms.

Streamlined door and window ensemble

New top-hung windows will replace louvred vent windows, providing a more streamlined design that allows more storage space for cabinets.

Bigger floor tiles

600mm x 600mm tiles will replace the 300mm x 600mm tiles in the kitchen, which makes cleaning and maintenance easier.

Threshold at adjoining areas

Ramps at adjoining areas will be replaced with a 20mm drop, giving a more modern look and layout to flats.
