

How the unmanned stores work

OMO STORE

- Set up an account with OMO Store
- Scan QR code from OMO Store's mobile app to enter the store
- Select items for purchase
- Take all items to the checkout kiosk, which will scan the RFID tags on all items
- Pay via cashless payment options including credit card, Nets and GrabPay

PICK & GO

- Set up an account with Pick & Go
- Scan QR code from Pick & Go's mobile app to enter the store or submit pictures of yourself via the app to enter the store via facial recognition
- Select items for purchase and artificial intelligence will automatically log the items in your virtual cart
- Exit the store when you are done shopping and your selected items will automatically be charged to your account with payment options including Mastercard and Visa
