

White Island volcano

ABOUT THE VOLCANO

- Erupted yesterday without warning.
- New Zealand's most active volcano cone.
- Popular with tourists. Many believed to be on or around the volcano when it erupted.
- About **70%** of it is underwater.
- Around **10,000** people visit the volcano every year.
- Has erupted frequently over the last half-century, most recently in 2016.
