

Survey on economic impact of Covid-19 outbreak

Most Singaporeans are worried but are confident in the Government's response to support the economy, a new survey shows.

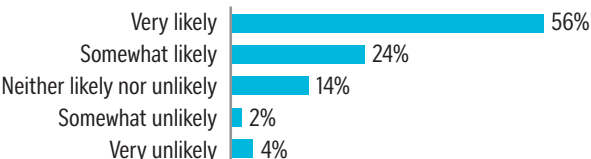

How likely do you think the following impacts from Covid-19 are?

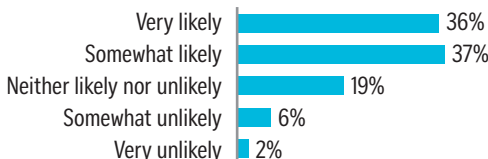

"I will decrease my day-to-day spending"

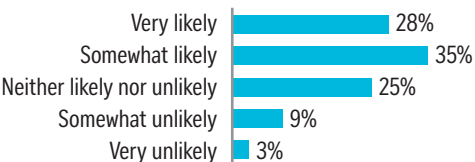

"I will decrease my spending on luxury items"

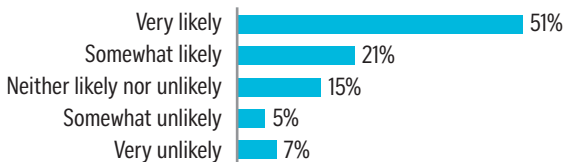

"There will be a recession"

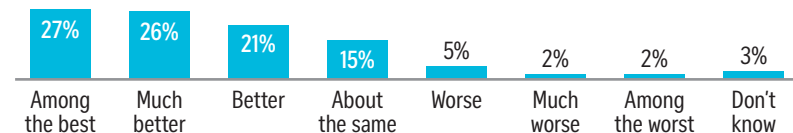

"There will be a severe recession"

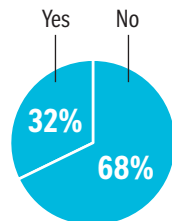

"I will delay major purchases like a new car"

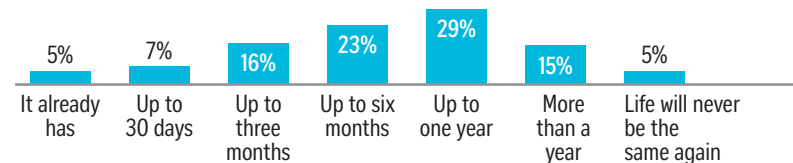

How do you think the Singapore Government's response to supporting the economy during the outbreak compares with other countries'?

Have you stockpiled any items for the coming weeks?

How long do you think it will take for your life to return to "normal"?

Do you plan to stockpile any items in the coming weeks?
