

Region's attitudes to climate change

Respondents from all 10 Asean nations see climate change as an important challenge for the region and want to see a shift away from coal and other fossil fuels and a focus on renewable energy

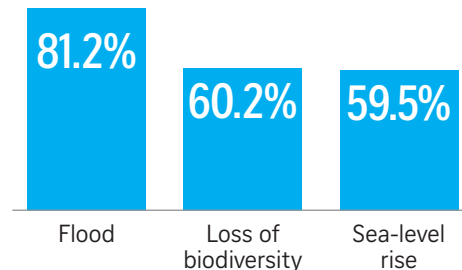

• What is your view of climate change?

• Do you think climate policies and laws in your country are aligned with the target to limit global warming to 1.5 deg C?

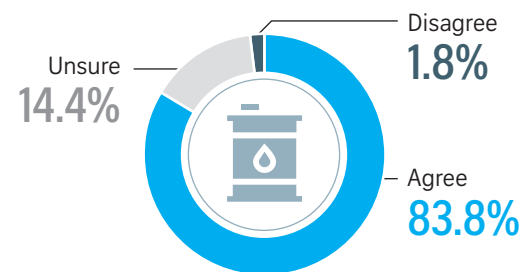

• In your view, what are the most serious climate change impacts that your country is currently exposed to?

• Asean countries should cut their reliance on coal as soon as possible. Do you agree?

• Reduction of dependence on fossil fuels will be painful in the short term but beneficial to Asean economies in the long term. Do you agree?

• There is potential for Asean to tap the renewable energy sector. Do you agree?
